Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Highly-Accurate, High-Speed Filling

Ohlson stainless steel multi-head scales and counters are made for high-accuracy and high-speed applications. These multi-head scales are easy to operate, clean and maintain.

Ohlson combination scale systems will weigh/count your product and fill your containers with speeds reaching more than 200 cycles per minute and accuracies to a fraction of a gram. These production capabilities are among the industry's best in performance and reliability.

Features

Drastically reduce product giveaway (load cell accuracy to 0.1 gram)
Minimize end product damage with clean, gentle handling
Comply with weights & measurement standards and regulations
Confirm both weight and count measurements in your packaging
Highly sanitary
Easy, tool-less parts removal
Uptime rating near 100 percent maximizes your man hours and efficiency
Easily programmable
100-program storage for quick changeover

Options

Timing hopper
Tilted feed pans
C.O.P. Rack
Spare set of buckets and chutes
