Case Sealing Tape

Wide range of tape with hot melt, acrylic, and natural rubber adhesive

- Hot melt tape is designed with quick release from the roll, ideal for high-volume automatic taping.
- Acrylic tape has the lowest cost, and is great for extreme temperatures and long-term storage.
- Natural rubber adhesive has extremely high, very aggressive tack, great for dusty dirty environments.

The Right Tape for Your Application

Machine tape, hand tape, 2" or 3" and the right adhesive for you
