## Comprehensive Co-Packing Partnership

Custom, versatile turnkey contract packaging solutions

Qual Pac provides highly versatile, high-volume co-packing solutions for long-term packaging partnerships. From multi-component food kits to complex beverage combo-packs, to massive snack packaging, to complicated display assembly, and much more. We know custom co-packing.

### Our Standard Protocol Offerings and Capabilities

#### PARTNERSHIP

##### **Planning and Forecasting**

Regular planning meetings to understand demand forecast, and to plan production.

##### **Account Management**

Dedicated account resources assigned for demand forecasting calls, production scheduling, dock appointments and materials / supplies procurement services based on forecasted monthly volumes.

##### **Warehouse Management System with Client Portal**

All inbound and outbound product is barcoded. All movements are scanned into our WMS for Client visibility and reporting. Cycle counting of raw materials, finished goods and materials to ensure up-to-date, accurate inventory quantities.

**For more information, call us at 888-318-0083 and visit [ProPac.com](http://ProPac.com)**

## SHIP IN & RECEIVING

### **Dock Scheduling**

Scheduled dock appointments for receiving in-bound WIP and materials, and out-bound finished goods.

### **Yard Management**

Possible drop-and-hook receiving and shipping to streamline use of assets and turnarounds. Possible unloading cargo ship containers.

### **Receiving**

Receive, unload, inspect and process inbound product. Scan and maintain carrier documentation and quality trailer inspections to specifications.

### **Raw Material Goods Put-Away**

Label, scan, and store raw material pallets per storage requirements, including if needed long-term 3PL storage on-premises, using our WMS inventory management system.

## PACKAGING

### **Production**

Move WIP inventory to production staging per FEFO protocol. Package and code per specification. Build and label pallets to specifications.

### **Pallet Build**

Stack pallets to approved customer pallet pattern specification. Add additional packaging materials to protect the retail product on the pallet per ship test specifications provided by customer.

### **Finished Goods Put-Away**

Label, scan, and store finished goods pallets per storage requirements, including if needed long-term 3PL storage on-premises, using our WMS inventory management system.

## SHIP OUT

### **Outbound / Shipping**

Scan and load containers/trailers per orders and pack out specifications. Scan and maintain carrier documentation and quality trailer inspections to specification. Protective material for container to be determined based on ship test, customer specification and expense.

### **Order Fulfillment**

Pack and ship products to all distribution centers and retail stores in North America, as well as individual e-commerce customers around the world.

## CERTIFICATIONS & LICENSING

### **Food Safety and Food Quality**

Certifications and personnel, including voluntary audits, are standard in all Qual Pac facilities. FDA, AIB, and GMP compliant. Additional certifications for Kosher, Organic and Sedex are available.

### **Alcohol Licensed Facility**

Texas Alcoholic Beverage Commission licensed for malt, wine and spirits.

## SECURITY, MANAGEMENT & MAINTENANCE

### **Security**

Exterior and interior camera security is included. Dedicated, fenced production and inventory space to segregate client goods and operations, if needed. Personnel will badge in and out of secured area.

### **Engineering and Maintenance**

On-premises skilled maintenance personnel to ensure the optimal performance of equipment and packaging lines.
