Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Automated Bagging System for Large Bags up to 22" Wide"

The Autobag 800S bagger is uniquely designed to provide enhanced productivity for large bag packaging applications up to 22" wide. This system features a breakthrough bag opening technology that securely grips and holds the open bag in place, creating a large, square opening (up to 11" x 11") that allows for easy loading of large products and multiple items.

State-of-the-art engineering has resulted in a system that is inherently safe. The Autobag 800S eliminates the need for bulky guarding or devices required for safe operation. The unobstructed access makes loading ergonomic and improves operator throughput. This open design also makes the 800S highly compatible with Autobag and third-party counters, scales and infeeds.

When used with genuine [Autobag pre-opened bags-on-a-roll](#), the Autobag 800S ushers in the next evolution of high-quality, reliable and flexible mail order fulfillment packaging, backed by the industry's most comprehensive engineering and field service network at Automated Packaging Systems.

## User Benefits

Minimal guarding provides unobstructed access to the open bag

Simple bag threading for easy changeover to keep production lines running smoothly

Programmable pass-through up to 11" for maximum flexibility

Capable of running bags up to 22" wide for bulky products and packaging multiple items into a single bag

Coordinated seal flattener for wrinkle free seals

A sophisticated tension control unit centers and monitors the position of the film throughout the entire bagging process

Compact footprint minimizes floor space

Easily integrates with automation equipment and existing production lines

Modular bag storage shelf speeds bag changeovers

AutoTouch Control Screen accesses operator tutorials, help system, on-board diagnostics, data retrieval, and performance monitoring. It features menu or graphic-based selection options

Advanced bag opening system allows for more product to be placed into a bag, creating less waste

## Options

Rear takeaway conveyor

Side exit takeaway conveyor

## Typical Applications

Aerospace & defense

Apparel & accessory packaging

Automotive

Electronics

Hardware & fasteners

Healthcare

Hobby & craft

Household products

Personal products

Pet products

Toys

## Bag Specifications

Film thickness: 1.09 to 4.0 mil

Width: 10" to 22"

Length: 10" to 36"

Pass-Through: Up to 11" (27.9 cm)

Bag Load Capacity: Up to 10 lbs (with load shelf)

## Specifications of the Autobag 800S

Electrical: 110/220 VAC switchable 50/60 Hz, 1.0kW continuous, 20 amp

Power Consumption: 1800 Watts continuous

Air: 5 CFM/80 psi of clean, dry air

Dimensions: 45.3"W x 72"L x 43.5" - 55.5" load table height

Weight: 660 lbs
