Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Sustainable Mail Order Fulfillment Bagging Solution

The Autobag 850SP paper high-speed bagging and printing system is a sustainable solution for mail order fulfillment and e-commerce paper applications.

The 850SP bagger automates the packing process and improves productivity with bag-opening technology that allows for easy loading of orders and enables inline printing of shipping label information. Its ergonomic design is ideal for operators and the small footprint saves valuable warehouse space. A spacious bag opening affords effortless loading of large products or multiple items.

The Autobag 850SP bagging system opens, labels, and seals 7 to 10 bags per minute.

The design of the 850SP allows for easy integration with ecommerce warehouse management systems and other auxiliary equipment such as conveyors or scanners. Autobag One Step printing enables inline printing of shipping label information and prevents order queuing while increasing order fulfillment accuracy.

## Benefits

Sustainable bagging system runs curbside-recyclable paper bags

Enables inline printing of shipping label information

Integration to WMS system

Ideal for apparel or soft goods

Reduces shipping cost compared to standard corrugate

## Key Features

Minimal guarding provides unobstructed access to the open bag

Simple bag threading for fast and easy changeover

A sophisticated tension control unit centers and monitors the position of the film throughout bagging

Compact footprint minimizes floor space

Intuitive interface for easy troubleshooting, diagnostics, production data retrieval simplifies maintenance and optimizes productivity

Modular bag storage shelf speeds up bag changeovers

Simple height adjustment and casters for operator comfort and portability

Easily integrates with warehouse management systems and existing packaging lines

Additional Options: counting systems, scales, and conveyors for semi-to fully automatic bagging

Seal flatteners promote straight, level seals to optimize fillable bag volume

## Bag Specifications

2 sizes available: 14" x 20" and 19" x 26"

Colors: Natural kraft and white

## Specifications of the Autobag 850SP
