Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Two-Station Manual Blister Sealer

Starview SB manual shuttle blister sealers are designed and built for industrial applications. These machines are designed for ease of operator training and simple operation. SB blister sealers can adapt to seal blister packages for a wide range of products by simply changing the sealing fixture tooling. An efficient heating system keeps power consumption low.

These blister sealers are competitively priced making them ideal for contract packagers or low volume equipment manufacturers. Starview SB shuttle sealers will provide years of dependable performance with a minimum of maintenance.

Please [contact Pro Pac](#) or call 888-318-0083 for your blister sealing equipment.
