Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Compact and Economical, Seals a Wide Range of Cartons

Featuring a smooth and efficient double-head rotary carton feed system with optional orbital feed and pre-break, the Adco JET-60 delivers class-leading carton erecting performance in a compact and economical package.

Capable of erecting and sealing a wide range of carton sizes at speeds up to 60 cycles per minute, the JET-60 is ideal for the most demanding and cost conscious production environments.

Fast changeover, simple operation and ergonomic design, along with the ability to easily add a barrel cam auto-load system, make this cartoner unique.

The special flap tucker design of the JET-60 meets the demand of challenging applications.

Like all Adco machines, the JET-60 is constructed in stainless steel and is available in standard or washdown configurations.

Benefits

Stainless steel construction improves cleanability and reduces corrosion

Rotary carton feeder ensures smooth, efficient operation

Optional orbital carton feeder with vacuum pre-break will open the most challenging cartons

Special horizontal flap tucker takes the challenge out of difficult bag-in-box applications

Large carton size range protects your investment as products change

Advanced guard design keeps operators safe and maximizes maintenance access

Optional barrel cam auto-load conversion kit makes it easy and affordable to convert from manual to automatic loading

Features

- Stainless steel construction, welded frame
- Compact frame with leveling feet and casters
- Double-head rotary carton feeder with ergonomically-designed product load table
- Ergonomically-designed product load table
- Capable of closing either tablock style or glued cartons
- Nordson ProBlue hot melt glue system (when glue is specified)
- Allen-Bradley control package
- Category 3 safety system with a fully-interlocked barrier guard package
- Optional barrel cam auto-load conversion kit
- Many options available upon request

Options

- Available auto-load barrel cam conversion
- Orbital feeder with pre-break
- Washdown construction
- Glue or tablock tuck style closure
- Marking and coding systems
- 10' bolt on infeed conveyor
- Powered magazine
- Switchable intermittent to continuous motion feed
- Powered side discharge belts

Applications

- Flow-wrapped products
- Frozen foods
- Bag-in-box
- Baked goods
- Snack foods
- Dairy products

Carton Size Range

- Length of Opening: 1" to 9" (25 to 229mm)
- Width of Opening: 1" to 4" (25 to 102mm)
- Carton Depth: 4" to 12" (100 to 305mm)

Specifications

- Electrical: 230/460 VAC, 3-Phase with ground (PE), 60 Hz, 30A
- Air: 10 CFM @ 95 psi
