Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Smooth, Efficient Reliable Cartoner with an Extremely Small Footprint

The Adco JET-BC-120 horizontal end-load cartoner packs industry-leading performance and features into a small footprint.

Capable of erecting, loading and sealing a wide range of end-load carton sizes and styles at speeds up to 120 cartons per minute, the JET-BC-120 is ideal for the most demanding and space conscious production environments. Along with its ergonomic operator features and its continuous motion design, the JET-BC-120 includes a fully automatic barrel cam product inserter with an adjustable overload retract system.

Smooth, efficient and reliable operation in an extremely small footprint make the JET-BC-120 a great choice for packagers looking to maximize their productivity, while using less space.

Like all Adco machines, the JET-BC-120 is constructed out of stainless steel and is available in both standard and washdown configurations.

## Benefits

- Stainless steel construction improves cleanability and reduces corrosion
- 2-head rotary carton feeder with orbital option ensures smooth, efficient operation
- Fast, easy changeover with screw adjustable overheads maximizes productivity
- Compact frame with leveling feet and casters saves space and maximize portability
- Large carton size range with oversizing options protects your investment as products change
- Ergonomically-designed product load table minimizes fatigue and maximizes productivity
- Advanced guard design keeps operators safe and maximizes maintenance access

## Features

- Stainless steel construction
- Compact frame with leveling feet and casters
- High-capacity, easy-to-load carton magazine
- 2-head rotary carton feeder with orbital option
- Product infeed conveyor with adjustable buckets
- Capable of erecting and sealing either tablock style or glued cartons
- Nordson ProBlue hot melt glue system (when glue is specified)
- Allen-Bradley control package
- Fully-interlocked barrier guard package
- Many options available upon request

## Options

- Washdown construction
- Nordson Liberty on-demand hotmelt glue system
- Automatic pushbutton changeover
- Overhead confining systems
- Tuck or glue style cartons
- Additional infeeds
- Multiple indexers
- Multiple feeders
- Multiple pitch options (6", 12")
- Open major flap detect
- Marking and coding systems

## Applications

- Bag-in-box
- Flow-wrapped bars
- Frozen food
- Ready meals
- Pharmaceuticals
- Dairy products

## Carton Size Range

- Length of Opening: 1" to 9" (25 to 229mm)
- Width of Opening: 0.75" to 4" (20 to 102mm)
- Carton Depth: 4" to 12" (100 to 305mm)

## Specifications

- Electrical: 230 VAC, 3-Phase with ground (PE), 60 Hz
- Air: 8-9 CFM @ 95 PSI (Venturi) / 2-3 CFM @ 90 PSI (Pump)
