Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Form Glued or Lock Style Trays and Tri-Seal Cartons

Designed to form lock style trays and tri-seal cartons, the versatile Adco AFC family of top load carton formers are capable of forming a wide range of carton sizes and styles at up to 60 cycles per minute, depending on the configuration.

Ideal for retail ready packaging applications, the flexible and adaptable AFC formers feature quick change forming heads, pick-and-place carton feed design and a shuttle style carton transfer system to provide efficient, reliable and forgiving operation.

Like all Adco machines, the AF family of formers are available in both standard and washdown configurations.

Benefits

Stainless steel construction improves cleanability and eliminates corrosion

Heavy-duty construction reduces maintenance and maximizes uptime

Fast, easy changeover reduces downtime and increases productivity

Large carton size range and style range protects your investment as products change

Easy integration to other Adco top load machinery saves time and money

Advanced guard design keeps operators safe and maximizes maintenance access

Features

Stainless steel construction

Available in single, double, or triple head forming configurations

Compact frame with leveling feet and casters

Quick change plunger, forming cavity, magazine frame and pick bar
Overload detent system for jam protection
Pick-and-place carton feed system
Allen-Bradley control package with touch screen HMI interface
Category 3 safety system with fully-interlocked barrier guard package
Downstream photo-eye vacuum control
Many options available upon request

Options

Washdown construction
Available in single, double, or triple head forming configurations
Form 4-corner display trays with hot melt glue
Form fold-over end wall locking trays
Pneumatic or air cylinder eject
Low carton magazine warning light
Flighted or non-flighted packing conveyor
Electronic packing conveyor interface
PLC & HMI upgrades
Integrate with an Adco or 3rd party supplied product loading system
Integrate with an Adco supplied carton closer

Applications

Snack foods
Baked goods
Flow-wrapped products
Ice cream novelties
Frozen meats
Dairy
Household products

Carton Size Range

Length x Width x Depth: Varies by application

Specifications

Electrical: 230 VAC, 3-Phase with ground (PE), 60 Hz, 30A
Air: 10 CFM @ 70 PSI
