Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Form, Load, and Seal Small to Medium Vertical End Load Cartons

Featuring the patented "Stella" 8-pocket quick size adjust starwheel, the Adco Compact 4 was designed to form, load and seal small to medium size vertical end-load cartons.

The patented design of the Compact 4 enables rapid no-tool changeover and it can be configured with fully automatic product and leaflet loading options as well. With its space-saving footprint and flexible design, the Compact 4 is ideal for pharmaceutical and cosmetic packagers.

This simple-to-operate and ergonomically designed machine includes two standard hand load stations coupled with lights curtains and product sensors for safe, automatic machine cycling speeds up to 40 cartons per minute.

Like all Adco machines, the Compact 4 is constructed in stainless steel and is available in both standard and washdown configurations.

Benefits

Stainless steel construction improves cleanability and eliminates corrosion
Patented "stella" 8-pocket quick adjust starwheel maximizes productivity and uptime, starwheel with changeout pockets is available
Uses gravity to help operators load product faster & more efficiently
Load area light curtain and product sensor ensures safe, automatic machine cycling
Ergonomically designed product load areas minimize fatigue and maximize productivity
Flexible design minimizes changeover time and protects investment as products change

Features

Stainless steel construction
Compact design with casters and adjustable leveling feet
Ergonomically designed product load areas
Uses gravity to help operators load product faster & more efficiently
Configurable with fully automatic product and leaflet loading options
Allen-Bradley PLC control package
Nordson ProBlue FLEX hot melt glue system (when glue is specified)
Quick adjust levers and scales on all adjustments
Advanced guarding with light curtain and product sensor in the load area
Many options available upon request

Options

Star wheel with quick changeout size pockets
Closing of the bottom flaps before the load area
Tablock tuck or glue style closure
Marking and coding systems
Low carton indicator
Integrate with an Adco or 3rd party product loader
Tall style barrier guarding
PLC & HMI upgrades
Leaflet inserter

Applications

Pharmaceutical products
Cosmetics
Household products
Novelties
Candy and confectionery

Carton Size Range

Length of Opening: 1" to 4.72" (25 to 120mm)
Width of Opening: 0.71" to 3.54" (18 to 90mm)
Carton Depth: 2.36" to 7.09" (60 to 180mm)

Specifications

Electrical: 230 VAC, 3-Phase with ground (PE), 60 Hz, 30A
Air: 8-9 CFM @ 65-70 PSI
