Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Simple, Manual Carton Flap Glue System

The Econoseal Mini Monoseal cartoner is a simple and safe semi-automatic carton flap glue sealer that can be used to seal carton end flaps, hinge covers, side glue joints, gable tops, etc.

Operation

Operator presents one end of a carton in position over the glue pot and starts the cycle via a foot pedal. Carton is then manually lifted against a squaring device on the compression panel and hot melt seals the carton flaps.

Operator loads product and repeats process on the other end of the carton.

Features

Portable, self-contained table top design

Simple and proven Econoseal hot melt glue pot system

Foot pedal cycle start

Quickly adjustable for different sizes without the need for tooling
