Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Pack Pre-Glued End Load Cases at Speeds Up to 25 per Minute

With its industry leading performance, modern design and compact footprint, the Adco ELCP is ideal for the most demanding and space conscious production environments.

Featuring a fully-welded, sanitary, sheet metal frame, ergonomic magazine load height, dual-shaft design for ease of set-up, along with standard servo controls, the ELCP handles a wide range of pre-glued end load case sizes with maximum precision and reliability at speeds up to 25 cases per minute.

Like all Adco machines, the EnCompass ELCP is constructed out of stainless steel and is available in both, standard and washdown configurations.

## Benefits

- Stainless steel construction improves cleanability and reduces corrosion
- Fast, easy changeover with dual shafts and motorized overheads maximizes productivity
- Compact frame with leveling feet and casters saves space and maximize portability
- Full control guide and plowing system maximizes jam protection and reduces downtime
- Advanced guard design keeps operators safe and maximizes maintenance access

## Features

- Stainless steel construction
- Compact frame with leveling feet and casters
- High capacity, easy-to-load case magazine
- Servo motion controls throughout
- Nordson ProBlue hot melt glue system

Allen-Bradley control package  
Fully-interlocked barrier guard package  
Many product handling and infeed options available

## Applications

Refrigerated and frozen foods  
Bakery and snack foods  
Beverage and brewing  
Dairy  
And more

## Case Dimensions

Length of Opening: 4" - 14" (102mm - 356mm)  
Width of Opening: 3" - 14" (76mm - 356mm)  
Case Depth: 9" - 24" (229mm - 610mm)

## Specifications

Electrical: 230/460 VAC, 60Hz, 3 phase  
Air: 2-3 CFM, 90 psi
