Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Robotic Case Packer with Unparalleled Speed and Adaptability

Designed to provide maximum flexibility, performance, and reliability in an extremely small footprint, the Adco EnCompass RCP-15 robotic case packer is ideal for the most demanding and space-conscious production environments.

The Adco EnCompass RCP robotic top load case packer features end-of-arm tool designs can be configured to handle many types of top load case packing formats.

The EnCompass RCP robotic case packer provides packagers with unparalleled speed, adaptability, and investment protection. The EnCompass RCP case packing robot features stainless steel construction and is available in either standard or food grade configurations.

Benefits

Stainless steel construction improves cleanability and eliminates corrosion
Fanuc robot enabled case erector reliably picks and erects the most challenging cases
Precision robotic motion ensures gentle product handling and quality output
Unique Fanuc parallel-link design maximizes speed and acceleration
Fast, easy tool change reduces downtime and improves productivity

Features

Compact 14' x 7' welded heavy duty frame
6' long powered case magazine
Sanitary design with easy access for changeover and cleanup

Multiple infeed options including flat belt and servo-driven racetrack designs
Random product infeed with integrated irVision (Camera not included)
Able to erect, pack and seal top load RSC cases and HSC bottom trays
Allen-Bradley PLC control package with touch screen HMI interface
Category 3 safety system with fully-interlocked barrier guard package
Many options available upon request

Applications

Snack foods
Baked goods in trays
Flow-wrapped products
Frozen meats
Dairy
Personal care
Cosmetics
Beverage

Options

Washdown construction
Special material handling
End of arm tooling (EOAT) options
Product collator
Bucket train

Case Dimensions

Max and min vary by application

Specifications

Electrical: 230/460 VAC, 60Hz, 3 phase
Air: Consult Pro Pac
