Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Pack Wrap Around Cases at Speeds Up to 20 per Minute

When only the best will do, look no further than the Adco EnCompass WACP wrap around case packer.

With its industry leading performance, modern design and compact footprint, the WACP is ideal for the most demanding and space conscious production environments. Featuring a fully-welded, sanitary, sheet metal frame, ergonomic magazine load height, dual-shaft design for ease of set-up, along with standard servo controls, the Adco WACP handles a wide range of wrap around case sizes with maximum precision and reliability at speeds up to 20 cases per minute.

Like all Adco machines, the EnCompass WACP is constructed out of stainless steel and is available in both, standard and washdown configurations.

Benefits

Wrap around cases provide up to 30% material savings over traditional cases

Stainless steel construction with fully-welded sheet metal frame provides maximum strength, plus improved sanitation and cleanability over traditional designs

Fast, easy changeover with dual shafts and motorized overheads along with servo controls maximizes reliability and productivity

Intuitive and modern interface enhances operator experience and improves overall equipment effectiveness (OEE)

Full control guide and plowing system maximizes jam protection and reduces downtime

Advanced guard design keeps operators safe and maximizes maintenance access

Features

Stainless steel construction
Compact frame with leveling feet and casters
High capacity, easy-to-load case magazine
Servo motion controls throughout
Modern and intuitive operator interface
Nordson ProBlue hot melt glue system
Allen-Bradley PLC control package with touch screen HMI interface
Category 3 safety system with fully-interlocked barrier guard package
Many product handling and infeed options available

Applications

Refrigerated and frozen foods
Bakery and snack foods
Confections
Nutritional products
Personal care
Pharmaceutical
Soap and detergents

Case Dimensions

Length of Opening: 4" - 14" (101mm - 356mm)
Width of Opening: 3" - 14" (76mm - 356mm)
Case Depth: 7.5" - 22" (190mm - 559mm)

Specifications

Electrical: 230/460 VAC, 60Hz, 3 phase
Air: 3 CFM @ 90 PSI
