Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Simple High-Performance Case Erecting

The BestPack ELVS case erector is an innovative, high-performance carton erector/sealer. This erector is built for heavy usage with quick and simple carton size changeover. There are no tools required for carton size changeover. The ELVS handles a wide range of carton sizes.

All BestPack units are available in standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.

## Features

Heavy-duty 3mm CNC cut and welded frame including upper welded legs.

Quick and easy changeover.

Size adjustment screw drive counter for the hopper height position and carton width.
