# Econoseal Econopacker Case Packer

## At a Glance

- Ideal for case packing multipacked cartoned, canned, and miscellaneous products
- Up to 10 cases per minute
- Broad size range
- Heavy duty, welded stainless frame

## Pricing

Call us at 888-318-0083

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Economy Semi-Auto Case Packer

The Econoseal Econopacker is a semi-automatic case packer that provides a lower cost, first step to reducing labor and automating the case packing process. The Econopacker is ideal for case packing of all types of multipacked cartoned, canned, and miscellaneous products at speeds up to 10 cases per minute.

## Operation

1. Products enter the Econopacker at random via the infeed belt conveyor.
2. The machine automatically collates products into the appropriate pack pattern.
3. An operator places a case onto the horizontal loading station by positioning the open end of the case over the loading funnel and presses the foot pedal.
4. The product is automatically loaded into the positioned case.
5. The loaded case is then pneumatically lowered onto its bottom and exits via the roller conveyor to case taper or gluer. (case sealer not included)

## Features

Sanitary Construction (essentially stainless steel)  
Heavy duty, welded stainless frame  
5 foot (1.5M) infeed belt conveyor  
Collator / Upstacker  
Product loader  
PLC Controls  
Broad size range

Simple and fast size changeover  
Expandable for further levels of automation  
Flexibility to run RSC and die cut designs  
Accommodates both corrugated and paperboard materials  
Up to 10 cases per minute

## Options

Extended or reduced sized cartons outside the standard range  
Adjustable magazine  
Extended conveyor length  
Intermittent Motion drive for conveyor  
Stair-Step collator/upstacker  
3 light beacon  
5' extended carton magazine  
CE Guarding

## Supported Case Styles

RSC style cases

## Case Sizes

Min: 8"L x 6"W x 4"H (203 x 152 x 102mm)  
Max: 24"L x 16"W x 18"H (609 x 406 x 457mm)

## Specifications

Electrical: 220 volts, 50/60 Hz, Single phase  
Air: 80 psi (5.5 bar), volume consumption approximately 3.0 CFM (86 Liters/min)
