Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Automatically Seal Four Edges on Cases

The BestPack AT4E operator-free case sealer automatically applies pressure sensitive tape to four outer edges of cartons. The AT4E is designed to eliminate costly hand taping of the four outer edges where pilfer-proofing and protection of your product is necessary. This carton taper includes a front side entry for a 90 degree directional carton turn before entering into the four edge sealing station.

All BestPack units are available in standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.

## Features

Heavy-duty 3mm CNC cut and welded frame including upper welded legs.

Seals all four outside carton edges including all corners.

90 degree carton turn using front side carton infeed.

Top and bottom four belt drive system with 1-piece molded belts and V-belt guide.

Includes four 3" BestPack pop-out high-speed tape heads.

Low tape / no tape on carton / no cut sensors with malfunction alarm and three-colored light.

Motor drive uniform height adjustment.

Heavy-duty upper assembly four post system.

Heavy-duty maintenance free oil-less.

Air cylinder.

Interlock safety gates where needed.

Tape roll lengths: 1000 yd.  
Quality UL approved electrical parts.

## Options

Spare parts kit  
Available in either a left side infeed or a right side infeed
