Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Wide Case Size and Weight Range in a Stainless Case Taper

The Eastey SB-2EX-SS side belt tapers are great for light or heavy weight, narrow or small boxes. It is ideal for void-fill cases where the packaged product does not support the box.

Eastey's SB-2EX-SS Case Taper offers the quality that you have come to rely on from Eastey. The system's unique and simple design has proven to be one of the most reliable case tapers on the market today, keeping production and maintenance efforts to a minimum and providing fast and efficient alternatives to hand taping.

The SB-2EX-SS side belts are great for light or heavy weight, narrow or small boxes. It is ideal for void-fill cases where the packaged product does not support the box.

Dual 1/4 hp drive motors, aggressive industrial strength drive belts, and roller tables make SB-2EX a workhorse that will stand up to your toughest challenges. Each case taping machine is made from 12 gauge steel that will withstand even the most rugged applications. A powder coated exterior protects the machine from abusive conditions and guarantees years of use. Best of all, the SB-2EX is CE certified, so users can be confident it will consistently provide reliable, high quality case sealing.

Case Taping Made Easy

The SB-2EX-SS is designed and built with the customer in mind. Top and bottom tape cartridges are interchangeable and designed for easy tape threading. These machines accept 2" wide pressure-sensitive tape as a standard, or can be converted in the field with 3" tape heads for wider case taping applications. Operators can learn to use Eastey's SB-2EX-SS case taping machine in minutes, avoiding breaks in

production and downtime, saving your company money and increasing your ROI.
