Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Taping Extra Large Cases

The Eastey SB-2EXN side belt driven case taper is designed for compact packing and sealing. The durable design has proven to be one of the most reliable case tapers on the market today, keeping production and maintenance efforts to a minimum. The SB-2EXN provides a fast and cost-efficient alternative to hand taping.

Designed to streamline manual case packing, the SB-2EXN includes extended side rails and flap closing bars to assist with the packing and sealing process.

The Eastey SB-2EXN system pairs perfectly with Eastey's EX-CF Case Former to make a one person case forming, packing, and sealing station. The EX-CF Case Former automatically folds the bottom major and minor flaps and holds the box in place for the operator to fill. Once filled, the operator pushes down and holds the top trailing minor flap while the box enters the machine to be sealed.

The SB-2EXN offers fast and easy case changes with adjustable side rails and flexibility for boxes 5" in length and greater. Adjustments can be made on the fly with easy hand tighten knobs and cranks. The SB-2EXN utilizes Eastey's SB-2EXN Quick-Load top and bottom tape cartridges and will seal boxes as narrow as 4.0" wide and as low as 4.0" tall.

CE approved dual drive motors, aggressive industrial strength side belts and roller tables make SB-2EXN a workhorse. Each machine is made from 12 gauge steel and will withstand the most rugged applications. The powder coated exterior protects the machine from abusive conditions and guarantees years of use.

These case taping machines accept 2" wide pressure-sensitive tape as a standard, or can be ordered with

3" tape heads. The use of Eastey's SB-2EXN case taping machine can be learned in minutes, avoiding breaks in production and downtime, saving your company money and increasing your ROI.

Features

- Pairs perfectly with Eastey's EX-CF Case Former
- Utilizes Eastey's Easy-Taper tape head
- Plug-in and go operation
- Powder coated 12 gauge steel
- Top and bottom tape cartridges
- Industrial strength side belts
- Adjustable leg extensions
- Fast and easy box size changes
- Low maintenance
- Accommodates wide case range
- Casters for transportation within plant

Case Sizes

Minimum: 5"L x 4"W x 4"D
Maximum: Infinite L x 19.5"W x 19.5"D

Options

- 3" tape head accepts 3" wide tape rolls
- Front packing table bolts before taping system to allow for case movement; replaces anvil packing station
- Rear packing table bolts after taping system to allow for case movement
