# Little David LD-Xss RTE Semi-Auto Uniform Case Sealer

## At a Glance

- Industry-standard taper for wash down environments
- Heavy-duty stainless steel design
- Open non-tubular design
- 2 to 3 tape conversion on the floor
- Quick-release drive belts
- Easy access motor mounts allows for fast changover
- Extremely durable, heavy-duty steel design

## Pricing

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Wash Down Case Taper for Sanitary Environments

Years ago Loveshaw introduced the first stainless steel case sealer specifically designed to maximize sanitation during the cleaning process. Changes in sanitation standards and new regulations within the food industry have led to the newest design of our stainless equipment, the LD-Xss RTE.

Heavy-duty stainless steel construction, fast/easy maintenance, easy clean non-tubular design, and versatility make this piece of equipment an ideal sealing solution. Especially for food processing operations that require special precautions in order to eliminate bacteria and other food borne pathogens.

## Benefits

**Washdown Design:** Stainless steel design with no hollow tubular components that can harbor bacteria

**Simplifies Maintenance:** Quick release drive belts and quick disconnect electric cabling for easy washdown

**Production Versatility:** Specifically designed for ready-to-eat or cooked food processing operations

**Washdown Electronics:** NEMA 4 electrical box and NEMA 4X drive motor are standard

## Features

### Performance

No hollow tubular components that can breach and harbor bacteria

Angled surfaces maximize water shedding

Open design ensures all contact surfaces can be sanitized  
Standoffs used to minimize overlapping joints for full access while cleaning

### **Versatility**

Expansive case range  
Quick release drive belts can be removed and replaced in a matter of seconds, not minutes  
Easy access motor for quick change time  
Adjustable height levelers

### **Durability**

Top drive assembly travels on hardened steel components  
Long lasting non-contact sensors activate height and width adjustments

### **Safety**

Quick disconnect electrical cabling  
Center fixed E-Stop  
Locking knife guard

## **Options**

Stainless steel top squeezers  
Stainless steel infeed pack table with support  
Stainless steel swivel & rotating dual locking casters  
Recommended spare parts kit  
Spare tape cartridge  
Stainless steel tape cartridge upgrade  
Spare stainless steel tape cartridge  
Adjustable conveyor height  
Stainless steel gear reducer  
Stainless steel jet printer mounting adapter (Microjet only)  
Stainless steel top 3 flap folder  
Leveling pads 5" (127 mm) with adjustment  
Mirror image (left to right case flow)  
3 phase electrical package (any voltage)

## **Reliable Performance Warranty**

1 year all components  
2 year warranty for gear reducer and motor  
3 year warranty for tape cartridge  
(Moving and wear parts are not included, other restrictions may apply)
