Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Checkweigher for Tall Products

The Ishida DACS Checkweigher for Cartons is ideal for handling tall products, like cartons or PET bottles, ensuring no disturbances during conveyance to maintain accuracy.

Fitted with a top-chain conveyor, the Ishida DACS Checkweigher for Cartons can weigh tall products at high speeds and with good accuracy, while conveying the products stably.

Features and Benefits

- Top-chain conveyor minimizes movement of the product and ensure stable conveyance.
- HACCP-compliant water-proof structure (IP69-rated) and open-structured upper and lower conveyance units for easy cleaning, improved operability, and impressive durability.
- Urethane rubber side belts fitted as standard, so the speed can be controlled independently in each stage and the conveyance action can be adjusted precisely.
- User-friendly design, with functions for assisting the operating procedure, with carefully chosen options to create the ideal machine for your needs.

Please [contact Pro Pac](#) or call 888-318-0083 for your check weighing equipment.
