Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

High-Accuracy Small Product Checkweigher

The Ishida high-performance DACS Small Product Checkweigher achieves weighing accuracy at ± 0.008 grams.

The DACS Small Product Checkweigher is designed with a low-noise weigh drive unit to reduce machine vibration and stabilize weighing accuracy.

Checkweighing Accuracy at ± 0.008 Grams

Ishida innovative force-balance weighing sensor checks very small product weight, such as tablets in blister press-through packaging and stock packs.

Features and Benefits

- Ishida's unique digital filter technology reduces driving noise.
- Windshield for upper, lower, front, and back side for stable weighing accuracy.
- High-speed drop belt rejector.
- Hygienic stainless steel main body with tool-free detachable conveyor.

Please [contact Pro Pac](#) or call 888-318-0083 for your check weighing equipment.
