Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Fast Wrapped Product Checkweigher

Using specialized conveyors, the Ishida DACS Wrapped Product Checkweigher handles flow wrapped products after packaging.

The Ishida DACS Wrapped Product Checkweigher is designed to be installed near the exit of a HFFS flow wrapper, ideal for use with wrapped crackers and chocolates.

Features and Benefits

Ultra-fast processing capacity of up to 660 packages per minute.

Specially designed suction-type conveyor and knife-edge conveyor ensures close control of the interval between products, providing time to correctly handle each product.

Same high-quality precision weight checks and counting as Ishida flagship checkweighers, even for smaller products such as confectionery.

Please [contact Pro Pac](#) or call 888-318-0083 for your check weighing equipment.
