Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

30 to the Left, 30 to the Right

The Roach Smart MDR 30-30 is a 30 degree S curve accumulation conveyor designed to move product left 30 degrees and then to the right 30 degrees.

The MDR 30-30 features the same 1.9" motorized driven rollers (MDR) and controllers from Itoh Denki found in the Roach Smart Conveyor line.

The Itoh Denki controllers are available in programmable or fixed formats capable of handling simple to complex systems and are easily modified for future growth. This state-of-the-art, programmable technology makes zone-to-zone and product control simple through Ethernet/IP communication.

Please [contact Pro Pac](#) or call 888-318-0083 for your conveyors.
