Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Straight Accumulation Zone Lengths Include 18", 24", and 30"

Roach Smart MDR Straight conveyors include a 1.9" diameter rollers in either a set high (5") or set low (7") bed frame.

Standard accumulation zone lengths include 18", 24", and 30" depending on the length of the conveyor.

Roach Smart MDR Straight conveyors are zero pressure accumulating conveyors featuring motorized driven rollers (MDR) and controllers from Itoh Denki.

The Itoh Denki controllers are available in programmable or fixed formats capable of handling simple to complex systems and are easily modified for future growth. This state-of-the-art, programmable technology makes zone-to-zone and product control simple through Ethernet/IP communication.

Please [contact Pro Pac](#) or call 888-318-0083 for your conveyors.
