Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

When Fixed is Not Applicable and Gravity is Not Practical

Roach PowerFlex is the most durable flexible conveyor solution available for any industry application including parcel, e-commerce and retail, airports, warehouse and distribution centers, packaging, and more.

The excellent tracking performance of the Roach PowerFlex can be seen as materials follow the conveyor path and around curves with extraordinary accuracy. All Roach PowerFlex conveyors are designed with end line sensors to prevent damage to packages by end stops.

The Power Flex Accumulation option is designed to enhance efficiency, reduce downtime, and improve overall material flow. Gain control of sorting, packaging, quality checks, and load balancing through each accumulation zone.
