Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Simple Single Filing or Multiple Lane Combining

Shuttleworth product merging and combining systems single file products, or combine multiple lanes into a single lane with custom combiners. These systems work by moving products on the conveyor into an organized line as opposed to multiple scattered lines.

Shuttleworth variety of combining techniques include loose and tight single rowing, servo combining, and gated combining. Each of the techniques ensure that products move smoothly along the conveyor without damage, puncture, or harm.
