Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Sort and Reject Products Based on Quality, UPC and More

Sort and reject products based on quality, UPC, and more with Shuttleworth product sorting and rejecting solutions.

Shuttleworth designs solutions to sort, divert, and reject products in a quick, seamless application. Customized automated solutions sort, rotate, divert, or rejecting products.

In-surface reject systems can remove any "bad" products from the line. Diverters and laners guide laned products from one to up to 31 lanes while the pattern forming solution sorts products from one to multiple lanes.

Each of the sorting and rejecting systems allow for gentle ease of movement without sacrificing speed. Automatically place and organize products for improved productivity within your production line.

Please [contact Pro Pac](#) or call 888-318-0083 for your product handling equipment.
