Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Move Your Products as Needed Over the Conveyor Surface

Shuttleworth produces a range of flexible and fixed product guides designed to perfectly guide products as required by the application.

Adjustable side and overhead guides can be made of UHMW and stainless steel. Powered guides provide a bit more drive through the guide. Guides also allow for multi-lane travel and conveyance.

Because of the Shuttleworth unique Slip-Torque surface, guides can also be installed within the actual conveyor surface for applications where overhead guides would be unacceptable.

Please [contact Pro Pac](#) or call 888-318-0083 for your product handling equipment.
