# SpanTech Helical Conveyor Systems

## At a Glance

- Most aggressive elevation-change-to-curve radius in the industry
- Product base always in contact with the conveyor chain
- Incline or decline versatility

## Pricing

Call us at **888-318-0083**

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Change Product Travel Height and Direction

SpanTech helical conveyor systems allow a product to be inclined or declined while also undergoing a direction change.

SpanTech helical curved conveyors feature the most aggressive elevation change in the industry. The ergonomic modular design provides the industry's tightest turning radius. The chain is completely captured by an integral side channel to maximize safety, and the bi-directional drive unit adds versatility.

## Helical Curve Conveyor Features

- Most aggressive elevation change to curve radius in the industry.
- Tightest turning radius in the industry that others can not provide.
- Inclining or declining versatility.
- Safer, catenary-free chain is captured throughout the entire system.
