Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Effective Straight Conveyor Solutions

SpanTech's standard straight conveyors are the industry's best basic plastic chain conveyors. Expertly manufactured with premium materials, these conveyors are designed to eliminate any catenary or chain take up. SpanTech straight conveyors have a 3-axis symmetry that allows for the drive to be located at either end or side. This lets you push the standard straight conveyor up against existing pieces of equipment to get the best fit for your facility.

Captured chains let your team utilize SpanTech straight-line conveyor systems in a variety of ways. From tilting and twisting to laying it vertically or on its edge, SpanTech straight conveyors have the power to make your process most efficient. From transporting bags to moving car parts, SpanTech standard straight conveyors are here to help your manufacturing facility work effectively and get the job done right every time.

Features

- Easy to install and operate.
- Closed chain top option available.
- Ease of service with less wearstrip rivets and wear points.

Applications

- Pharmaceutical
- Food production
- Manufacturing
