Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Transfer Your Products Quickly, Smoothly

SpanTech gravity transfers allow the conveyor to be placed as close as possible to integrated machinery for a smooth fast transfer of even the smallest products.

For applications that don't require a powered transfer, these non-powered transfer solutions provide the ideal way to move your products.

Gravity roller transfers are fitting for non-powered transfer applications. The roller's small nose bar allows products to be transferred flawlessly and without damage. The innovative design makes maintenance and cleaning simple.

Gravity Transfer Rollers Features

Dead plate transfers are also available, custom-designed and fitted to your specific system.

11.2 mm (0.44") roller diameter.

Roller bridge can be easily lifted out and replaced.
