Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Premium Flow Wrapping Packages

Formost Fuji delivers advanced servo-driven horizontal flow wrappers designed for precision, versatility, and superior product presentation.

These three- and four-side-seal flow wrappers provide the perfect solution for industries demanding quality and efficiency.

FW3430B Produces Three-Side-Seal Packages

The Formost Fuji FW3430B flow wrapper produces three-side-seal packages.

For flat products, a three-side-seal configuration delivers exceptional package presentation. This package design allows full-surface printing on both the front and back of the package without interruption from a center sealing seam.

The Formost Fuji FW3430B flow wrapper is ideal for brands seeking premium shelf appeal and distinctive packaging styles.

Creates a three-side seal package from a [single web of film](#)

Ideal for products requiring a clean, professional finish

Perfect for confectionery, medical, and specialty items

FW3431/FS/B Produces Four-Side-Seal Packages

The Formost Fuji FW3431/FS/B flow wrapper produces four-side-seal packages.

This Formost Fuji flow wrapper provides maximum protection and a premium look for high-value products.

For flat products, the four-side-seal configuration offers outstanding design flexibility and broad application potential. This package design provides full-surface printing on both the front and back of the package without interruption from a center sealing seam.

In addition to consumer goods, the Formost Fuji FW3431/FS/B flow wrapper is used for pharmaceutical products and medical technology, where precision and clean presentation are essential.

Provides maximum protection and a premium presentation for high-value products

Creates four-side seal packages from a single web of film or two separate webs from top and bottom rolls

Standard Specifications

Both the FW3430B and the FW3431/FS/B configurations have these specifications.
