Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Versatile, Compact, Reliable

The PFM Swift is a horizontal flow-wrap machine with rotary crimp jaws, designed to wrap at speeds of up to 100 bags per minute.

An extremely versatile, compact and reliable machine, the Swift will accommodate a wide range of products, with its standard adjustable forming box, providing the solution to quick and efficient size changes.

Set-up change can be performed in about 5 minutes. Provides excellent performance and maximum operating safety.
