Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Small, Fast, Rugged Flow Wrapper

The Redpack NTS top-seal machine is the fastest, smallest, most durable and best performing top-seal flow wrapper in the market.

The Redpack NTS top-seal flow wrapping machine is designed for versatility and easy configuration to flow wrap a variety of products that are difficult to handle.

Often used on field-rigs, the Redpack NTS is robustly built in stainless steel for the tough conditions it is built to endure.

## State-of-the-Art Technology

The Redpack NTS has an advanced three axis servo drive system, supported by a 10.3" HMI color touch screen.

## Simple Fast Product Change Over

Using simple commands, operators quickly adjust the machine to package different products. Recipe storage allows bag length, print registration, end crimp slow down, infeed position, printed code position and machine speed to be changed automatically by simply entering a product name on the touch screen.

Please [contact Pro Pac](#) or call 888-318-0083 for your horizontal flow wrapping equipment.
