Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Multi-Pack Products at High-Speeds

The versatile Redpack P325E-SP is designed with a simple configuration that is fully adaptable to meet the needs of multi-packed products, including snacks, coffee and dried fruit.

The P325E-SP Multi-Packer flow wrapping machine is a proven reliable solution for high-volume snack multi-packing. The P325E-SP provides a multi-pack with minimum overall package size for maximum supermarket shelf utilization. Minimum overwrap material to reduce packaging waste, and high-class appearance to maximize brand image.

The Redpack P325E-SP Multi-Packer flow wrapping machine is designed for minimum maintenance and 24/7 production capability.
