Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Precisely Feed, Wrap and Batch Multiple Varied Trading Cards

This Redpack system has an extended product infeed. Eight card feeders are mounted to feed eight different cards to the product infeed stations. The card feeders are integrated with a Redpack P325 flowwrapping machine. After being flow wrapped, the wrapped packs of cards travel on a batching conveyor.

Please [contact Pro Pac](#) or call 888-318-0083 for your horizontal flow wrapping equipment.
