Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Accurate Label Placement at High Speeds

FoxJet LS7100 all-electric print and apply labeler has enhanced capabilities to achieve accurate label placement at high speeds using servo-controlled label dispensing technology and intelligent auto-adjusting sensor controls.

Reliably print and apply labels in flexible orientations on cases or pallets including the front, rear, side, top, bottom, and corner-wrap. Gain the ability to remote-in anytime as if they were on the line to run systems or check labeler status. Remote access options include the handheld controller, the Touch Pro PC or from a personal computer via ethernet connection.

## Features

- 7" intuitive color touchscreen diagnostic display
- Smart sensors providing real time feedback for quick troubleshooting capabilities
- Missing label sensors ensure
- Redundant systems capabilities
- Label dispensing driven by servo-motors for accurate label placement
- Configurable modules in Tamp, FASA, WASA and High-Speed Tamp applications
- Compatible with Touch Pro or handheld controller for remote access
- Option to pair with barcode scanner for verification in your material handling
