Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Simple, Stainless, and Super Quick Start-Up

Designed to be easy to install and service in industrial environments, the FoxJet Touch Pro comes with a stainless-steel enclosure making it suitable for tough labeling application environments.

Features include an increased response time allowing the customers to experience faster format changes and remote label message adjustment via a PC or the user-friendly controller. Downtime saving features in the Touch Pro's design eliminate sudden reboots that interrupt communication between the print engine and labeling equipment. This touchscreen capable stainless-steel PC offers high-performance benefits at a low cost.

Features

- 10.2" stainless-steel touchscreen with intuitive Windows 10 IOT Enterprise interface
- 15-second quick start power-up
- Built-in Ethernet and remote WiFi connectivity
- 2GB memory and serial and USB ports on the PC
- NiceLabel software compatibility
- Plug-and-go external keyboard (optional)
