Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Rugged Print & Apply Tamp Labeler for 24/7 Operations

The robust Little David LX-800T print-and-apply label application system is designed for around-the-clock labeling operations. Features a simple, easy-to-use control interface for ease of operation and an isolated rewind shut off control. The cast aluminum frame is wide enough to accommodate all OEM printers. Enhanced versatility, and simplified operation make the LX-800T a clear choice for real world print & apply applications.

Features

Simple, easy-to-use control interface

Isolated rewind shut off to disengage rewind for label threading without powering down entire system

Cast aluminum frame for a strong design with fewer individual parts

Frame can run maximum and minimum width of all OEM printers

Custom applicator pads (4" x 6" grid and chamber are standard)

Smart tamp with air assist

Stainless steel blow tube

Mounting stand can adjust machine to fit any angle or position

Please [contact Pro Pac](#) or call 888-318-0083 for your label applying equipment.
