Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Perfectly, Quickly Label Cylindrical Products

The TAL-1100MR Manual Round Product Labeler will label virtually any cylindrical product. With just the turn of a handle, labels up to 5" wide can be applied and 7" wide with an optional 7" wide kit. Products are quickly loaded into the applicator with the unique open carriage design. The top wipe down brush ensures that the labels are fully applied to the product. The open bottle support can be changed from one size to the next in seconds without the use of tools.

## Features

- No Tools Required
- Fully adjustable unwind tension
- Waste rewind spindle to collect backing paper
- Durable all steel frame with powder coat finish
