Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Automatically Dispense Labels Up to 2.5" Wide

The Take-A-Label TAL-250 Label Dispenser utilizes all steel frame construction, with an optional photo cell. This dispenser handles labels up to 2.5" wide with the power and performance necessary for the most demanding applications.

Utilizing a vertical peel plate the operator can easily visually inspect the label prior to removal and in one swipe remove a label of up to 8". No need to wait for the label to pass under peel bars. The unit also features an adjustable unwind tensioning system to control the resistance applied to the supply roll of labels.

Features

Full scrap rewind with quick start/removal feature
Label roll diameter up to 12"
Durable all steel frame with powder coat finish
Heavy-duty motor with built in overload protection
Dispenses die-cut or butt-cut labels

Options

Photo cell label sensor
