Print Pricing, Date Codes, Lot Numbers on Your Labels

The Take-A-Label Smart Jet Inkjet Printer will print on virtually any label stock. This printer is a great solution when you need to add an expiration date, a batch code or other information to a label prior. Using a wireless keyboard the printer is easily programmed. Using trusted Hewlett Packard technology and capable of printing up to 6 lines of information the Smart Jet Inkjet is a great solution for coding your label.

The Take-A-Label Smart Jet Inkjet Printer can be added to a constant speed label applicator and dispenser, eliminating the need for an encoder.

With a color LCD display, inputting information with the wireless keyboard is simple and easy. With the ability to print up to 6 lines at 300 x 300 DPI, this coder is the solution to your label coding needs.

The Smart Jet Inkjet Printer can be added to these dispensers:
