Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Automatically Wind Labels up to 4.5" Wide

The Take-A-Label TAL-400R works with almost any label printer, automatically winding up label stock up to 4.5" wide as it is provided. The unit starts and stops automatically using either a speed adjusting dancer arm or an adjustable torque switch. The TAL-400R can also be used as a complete, stand-alone rewind system for rewinding pre-printed labels. Using all steel frame construction and a high-torque DC motor with replaceable brushes, the TAL-400R is simple to use and will provide years of trouble-free service.
