Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Automatically Wind Labels up to 6.5" Wide

The TAL-610R will work with almost any label printer. Automatically winding up label stock as it is provided. The unit features a 3" expandable core. Allowing the operator to quickly and easily change rolls.

The TAL-610R can also be used as a stand-alone rewind system for rewinding pre-printed labels when used in conjunction with the TAL-100HD unwind stand. Using a solid state control board for increased reliability, and the standard all steel and aluminum construction the TAL-610R will give you the quality product you have come to expect from Take-A-Label machines.
