Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Sort Bottle Caps from Large Bulk Hopper

Inline Filling Systems fully-automatic cap sorter sorts bottle caps as they are elevated out of a large hopper.

This cap sorter is constructed entirely of fiberglass and UHMW plastic for corrosion resistant applications. Slats are spaced on the elevator chain to sort a range of caps. Additional sorting chains may be needed to work with all samples provided.

Features

Floor level cap bin eliminates the need for ladders to reach elevated cap feeders.

Fiberglass and plastic construction.

Cap on demand sensor initiates cap feeding as needed.

Discharge height of sorter is adjustable from 72" to 96".

Cover for cap bin is available at additional cost.

Please [contact Pro Pac](#) or call 888-318-0083 for your liquid filling equipment.
