Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Sort Bottle Caps from Large Bulk Hopper

Inline Filling Systems vibratory cap pre-feeder is used to meter caps into the centrifugal sorting bowl at a rate consistent with the sorters output.

This pre-feeder is necessary to prevent the centrifugal sorter bowl from jamming by having too many caps present. Not recommended for large caps greater than 70mm.

Features

Stainless steel and UHMW plastic construction.

Variable feed rates attained by a small air operated vibrator.

Capacity 4 cubic feet (approx. 3 cubic feet working capacity).

Please [contact Pro Pac](#) or call 888-318-0083 for your liquid filling equipment.
