Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Sort Bottle Caps from Large Bulk Hopper

Inline Filling Systems versatile sorting system is designed for all caps with a wide range of geometries, but practically limited to 70mm diameter caps.

Typically runs standard 28mm and 38 mm flat caps at rates of over 100CPM. Custom tooling allows conical, yorker, pour spout, and other specialty caps to be run in this system.

Features

Mounts on all stainless adjustable height stand with casters for easy mobility.

All stainless construction.

Sorter bowl height adjusts by electric linear actuator.

Cap on demand operation integrates with Inline Filling Systems CompuTorque capper.

Options

Large diameter caps

Higher sorting speeds
