Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Sort Bottle Caps from Large Bulk Hopper

Inline Filling Systems semi-automatic bench top plugger/corker is designed to mount to conveyor or slide tray for use.

Specific tooling is made for each plug or cork so that the plug or cork is held in a precise location by vacuum. Specific tooling or a V block is also provided for each bottle so that the operator can locate its precise location underneath the plug.

When the operator presses the footswitch, the plug or cork is pressed into place one at a time.

## Features

- Single size pressure foot (additional sizes available).
- Dive cylinder and controls.
- V-block for locating and holding the container.
- Mounting hardware/stand for attachment to conveyor or slidetray.
- Upgradeable to automatically snap pre-placed caps/inserts/plugs.

## Specifications

- Upgradeable to fully-automatic
- Dimensions: 24" W x 83.5" H
- Air: 6 cfm @ 80 psi, clean dry compressed air
