Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Liquid Filler Mounted to Workbench

Inline Filling Systems FPERISEMI-BT semi-auto peristaltic filling machine is expandable from 2 to 4 heads. An operator is needed only for loading bottles and initiating single cycle operation by footswitch.

Bottle management and filling sequence is electronically controlled entirely by the filling machine.

Mounts to workbench or slide tray for efficient production and handling of small containers. Ideal for small footprint (floor space) filling station.

Features

6,000 containers per day

Bench top semi-automatic production
